(注) 解答方法： 選択肢の中から最も適切な答えを一つ選び、その番号に対応する答案用紙のマーク欄を黒く塗りつぶしなさい。

**QUESTION 1** India has a season of heavy rains from about April to October. What is this season called?

1. The harvest season
2. The dry season
3. The monsoon season
4. The typhoon season

**QUESTION 2** The boiling point of water at ground level is 100 degrees centigrade but this changes with altitude. How would it be different at the top of a 3,000-meter mountain?

1. It will be the same.
2. It will be higher.
3. It will be lower.
4. It will depend on the weather conditions.

**QUESTION 3** My friend tells me that his company is like a sinking ship. What does he mean by that?

1. The company is headed for failure.
2. The building will be flooded by rising water.
3. One of its ships is sinking in a storm.
4. The company is getting over its financial difficulties.

**QUESTION 4** The weather forecast says high pressure will build across Japan on Tuesday, allowing for widespread dry weather and sunshine over a large portion of the country. What will the weather be like on Tuesday?

1. It will be rainy in some places.
2. It will be fine across much of the nation.
3. It will be mostly rainy throughout the nation.
4. It will be largely fine in western parts of the nation.

**QUESTION 5** You are the captain of a vessel. Your propeller is fouled with fishing gear. What should you do?

1. I should stop the engine and remove the fishing net.
2. I should put on all the navigation lights.
3. I should berth at the designated position.
4. I should turn the propeller much faster.

**QUESTION 6** You are sailing in shallow waters with many hidden rocks. How should you sail in order not to run aground?

1. I should take care not to strike any rocks.
2. I should increase speed and get away from the area as quickly as possible.
3. I should wait for the ebb tide to allow me to sail freely.
4. I should request the coast station for helicopter assistance by radio.

**QUESTION 7**

You are the port master. A gigantic cruise ship is leaving your port, but the bridge across the port is a bit too low for it to pass under safely at high tide. What should you advise it to do?

1. I should ask it to drop anchor in order for other vessels to pass by.
2. I should advise it to wait until the weather conditions improve.
3. I should order it to wait until the berth is clear.
4. I should instruct it to wait for the tide to go out so that it can pass under the bridge.
